[REDACTED] With the exception of the "Cubans in Africa" topic the talking points are coordinated with State. I have included copies of the State cables received thus far which include the "PLO," "Cubans in Africa," and "PRC-VN-USSR." I will get NFAC views on these cables tomorrow. [REDACTED]

4. All of the photos will be in a separate briefcase (the one I showed you) also ordered according to topic. It would probably be worthwhile for you to familiarize yourself with them once you get there. You will probably have too many. [REDACTED]

Using the notebooks will enable you to recover all the material before you leave. If you like I could have small note-taking notebooks attached so that it will be obvious to them not to take notes on the graphics.

I hope to have everything wrapped up by noon.
